Account Age

Usually it is a good idea to keep your oldest credit account open, as a high average account age generally demonstrates stability to lenders. Also, especially if you have been managing credit for a short time, opening many new accounts will lower your average account age and may have a negative impact.

Average Account Age	4 Years, 1 Months	4 Years, 11 Months	6 Years, 1 Months

Most Recent Account	<u>CHASE AUTO (Opened 12/2014)</u>	<u>CHASE AUTO (Opened 12/2014)</u>	<u>CHASE (Opened 12/2014)</u>

Inquiries - Requests for your Credit History

Numerous inquires on your credit file for new credit may cause you to appear risky to lenders, so it is usually better to only seek new credit when you need it. Typically lenders distinguish between inquiries for a single loan and many new loans in part by the length of time over which the inquiries occur. So, when rate shopping for a loan it's a good idea to do it within a focused period of time.

Potentially Negative Information

Late payments, collections and public records can have a negative impact on your credit standing. The more severe they are and the more recent they are, the more negative the potential impact.
